

March 22, 2023

Dear Bowness Families:

There are some exciting changes coming to Bowness High School. Our school will undergo construction, starting over spring break and continuing through the remainder of the 2022-23 school year, to increase the number of learning spaces in our building. This will allow us to better serve all of our current and future Bowness Trojans.

Construction will be focused on our main floor in the area adjacent to our Student Services office and the "Fishbowl", an area beside our cafeteria seating. Three new classrooms will be completed by August of 2023 thus ready for the 2023-24 school year. This construction will not impact teaching and learning in our building as we are working closely with the contractors to ensure that work that is of increased volume takes place either before or after our regular school hours, including during June exams. The construction area will be closed off from the rest of the school ensuring the safety of our students and staff.

Thank you in advance for your understanding and patience. Having started my tenure here at Bowness with a total student population of around 600 students, it is exciting to be in a position where our numbers warrant an increase in teaching spaces.

Sincerely,

Mrs. Jana Macdonald
Principal, Bowness High School
